

Church Request Email Template

Copy and paste the following email content in blue and fill in the blanks to send your email to a pastor in your area.

Dear Pastor _____,

My name is _____ and I am the Principal/Counselor at _____ Elementary School. We are a community school close to your church and need mentors to come alongside some of our students. We have an urgent need for consistent, stable, caring relationships to support many of our students. Kids Hope USA is a one-on-one mentoring program that fits perfectly with our current needs. I invite you to watch [this short video](#) and visit [Kids Hope USA's website](#) for more information.

If you think this is a good fit for your church, please reach out to me or contact Kids Hope USA by emailing partnerships@kidshopeusa.org. We're excited about the opportunity to partner with you as we together seek to make an impact on the community.

Thank you for your time,

Sincerely,

[Contact Information]

ADDITIONAL TIPS

Enhance your email request to an area pastor with these practical suggestions:

- Connect with your teachers or staff members who attend the church you're reaching out to. Personal connections can be particularly effective.
- If this church has supported your school in the past, reference those celebrations and extend your appreciation.
- Note the proximity of your school to the church location.
