

MAKE ANOTHER MEANINGFUL IMPACT

Your generosity means everything!

YOUR GENEROSITY IS TRANSFORMING LIVES

We are grateful to partner with you in this meaningful mission of building life-changing relationships, one at a time. Your investment is championing kids in communities across the country, fostering growth, transformation, and most importantly, **hope**.

Last school year, more than 12,000 Kids Hope USA mentors and students were paired together to continue a friendship or foster a new mentoring relationship. For students, these relationships brought confidence in and outside the classroom, and increased positive behaviors and interactions with peers; for mentors, it deepened their sense of community and offered an avenue to live out their faith.

GIVE TODAY TO BUILD LIFE-CHANGING MENTORING RELATIONSHIPS

Together, we can open the door for more kids to experience the power of a caring, consistent mentor. When you support this work, it is a direct investment in a child's future, sparking ripple effects of hope that reach schools, families, and entire communities. Your gift today will help us reach more kids, increase the longevity of mentoring relationships, and invite new partners to serve with us in this meaningful ministry.

Join us as we walk alongside students and mentors, seeing lives transformed through the power of one-on-one mentoring relationships!

What does having a mentor mean to you?

"EVERYTHING."

Ian, 7th Grade

STUDENT SPOTLIGHT

Sometimes the impact of a Kids Hope USA mentoring relationship goes far beyond what we could ever imagine...

Sally was a tiny first grader who could clear a classroom by throwing desks and chairs across the room.

But her mentor stayed by her side—faithfully and patiently loving her through every mood and meltdown.

Today, Sally is a junior in high school. She's been a varsity cheerleader and wrestler for three years. She and her family have joined the church, and she now spends Spring Break on a week-long mission trip with the youth group.

And someday, she hopes to become a Kids Hope mentor herself.

LIVE INTO ITS MISSION

As a director, I love being in a school to support mentors, teachers/staff, and students!

I love watching kids come running with huge smiles to meet their mentors! I love seeing the interactions and the positive relationships being built!
